

Why I want to go to college.

Hudson Corder

Why do I want to go to college? I want to go to college so that I can get a good paying job and get a master's degree. But that's later on so let's stick to what I like about college. Let's just put this into different points. The first point about the options: I want to go to Wayne State where they have a lot of different options you can choose from like being on their esports team. They also have a wide variety of majors. The one I would go for is Software Development. They also have a really good cafeteria. The teachers are nice and it is all in all just a good college to go to.

Second point. There are many sports that you can play in college like football basketball volleyball track the list goes on. Personally my favorite sport to do is track and I want to go to college to run track for them.

Third point. I want a higher education so that I can go into the job force I want to and to do that I need to go to a 4 year college so that I can get my bachelors. I am really good with computers and technology so I think software would be easy for me. I have learned to code a little bit but nothing I can't learn pretty easily. I have helped some the software of a couple of minecraft servers and my own computer software. I think I would be the perfect person to give the money to so that I can pursue the thing that I love technology.

There are so many things I could do in college that would help my lifestyle like make new friends and build up my social skills because right now I hate public places. And get so nervous around people but I think college could help me. I've come that now the last thing. I want to talk about is why I want to go to a college like wayne. I want to go to a school like Wayne because of the food. Let's just be real, the Wayans cafeteria is really good. When we went and ate there they had so many options and my personal favorite ice cream so if I could get good food like that everyday. I would be livin life not a very healthy life but it would still be a good life and I love video games because I am a teenage boy. I think every teenage boy likes

video games and if not. I bet like other types of games and waney just has the best stuff for me.

I also am putting Northeast Community College in consideration but for what I want to go into I

do think it would be the best fit since it is only a 2 year college. In conclusion I think I am the

best fit for the college fund because of all of my reasons.
