

Hello, my name is Alexander and I am a 7th grade student at Norris Middle School in Omaha, Nebraska. I will explain in this essay why I would like to be awarded this scholarship and how I plan to use it.

Ever since I was little I have always known that I wanted to go to college. I hope to use this scholarship to help pay for my college education. Having a college education would get me further in life as well. I plan to study Political Science and hope to become a campaign manager or politician. I think a college education is vital to my future and will open the doors to new and exciting opportunities and allow me to meet more people from different backgrounds. Going into politics would help me make the world a better place. I think a college degree would help me understand the field more than someone who didn't attend college.

This scholarship would help a lot as college is expensive and it will only go up from here. This \$2,000 scholarship could open even more opportunities and allow me to explore more colleges and universities.

In conclusion, college is important to me and my future career and life. A college education provides unlimited possibilities. I plan to use my college education to make a difference in the world. I hope this essay shows why I want to go to college and why I would appreciate being awarded this scholarship, thank you!
